I'll drop the water in my shop at 4870 Newport St. Commerce City CO Wednesday morning. I'll be leaving by noon. If you don't get it while I'm there Todd Myers [Personal Phone/Ex. 6] can help you. There are 15 bags of Brennfloc there as well. We'll be going down next week so no need to take more floc than you need for test.

Hi, Matt.

If it is convenient to get a 5 gallon bucket of water that would be great to get us a head start on the floc test. If it's an inconvenience it's not a problem. I can work it out next week at the site.

Steve - do we need to get the floc from the warehouse to Silverton for next week? Looks like I might be going so I want to get a small amount shipped if needed.

Make sure we know how much geotextile we need for the two ponds.

Look at our options to set the bag manifold system below the R n B pond w a liner under the bags.

Maybe I could have you pull a bucket of (5 gal w lid ?) of R n B water for START to test Brenfloc w if they want to in Denver ?

. That reminds, make sure we have a combo or key to the gate at the top road.

I found out this weekend that the big bike race is running from Gunnison to Monarch on Wednesday and will have HWY 50 all messed up. So I'm headed down there tonight and will look at what Pete did tomorrow morning and get out. Let me know if you have anything specific you want a picture of.
